Auris audio premiere

### ***Auris Audio - Fortino 88***

Products rooted in superior design, natural materials and handcrafting skills, come from Auris Audio. Our power tube amplifiers have gained major reputation over the years and the fact that with constant improvement, they have "conquered" many markets in the world.

Auris R&D team consisting of engineers, audio designers and craftsmen have dedicated days and nights of hard work finalizing our latest project – Fortino88 integrated amplifier.

Per request of our dear partner and South Korean distributor, Mr. Park Geunsin ( Sp-Motors ), Auris have designed Fortino88, older brother of the Fortino6550.

## BIAS

Output tubes in unit have manually adjustable BIAS, so it is possible to reduce noise and extend life of the tubes. By rotating BIAS potentiometer, you are adjusting BIAS for each tube.

## Product Specification

Class operation	Input stage class A   Output stage class AB
Configuration	Push-Pull
Vacuum tubes	4 x KT88, 2 x ECC99, 2 x ECC83
Load impedance	4 $\Omega$ and 8 $\Omega$
Frequency response	17 Hz - 30 kHz ( $\pm$ 1,5 dB)
Output power	70 W
Power consumption	300VA
Input Impedance	100 k $\Omega$
Input	4 x RCA
Dimensions (WxDxH) mm	450 x 400 x 270
Weight (kg)	17
Power supply dimension	450 x 400 x 160
Power supply weight (kg)	14

Auris is constantly striving for perfection of its products and "listens" carefully to audiophiles' demands, wishes and dreams with idea to transform them into something that will "blow your mind" and indulge the ears of the most demanding sound lovers.
